

FoodChek Systems Inc. *Material Safety Data Sheet*

Section 1- Product and Company Information

Product Name	Actero Salmonella Enrichment Media
Catalog Number	FCM-009
Manufacturer	FoodChek Systems
Address	1414 8th Street S.W. Calgary, Alberta, Canada, T2R 1J6
Phone	(403) 263-6357 (877) 298-0208

Section 2- Composition/Information on Ingredients

Chemical Characterization

Description: This product contains a mixture of the substances listed below along with nonhazardous additions. Hazardous ingredients within the product that are not listed below are at concentrations lower than the regulatory threshold limits specified by 29 CFR 1910.1200.

CAS#	Hazardous Ingredients
7758-11-4	Potassium Phosphate
7647-14-5	Sodium Chloride (NaCl)
113-24-6	Proprietary Reagent FR-001
	Proprietary Reagent FR-002

Section 3- Hazardous Identification

Hazard

Overview

Inhalation? Yes	Skin? Yes	Ingestion? Yes
-----------------	-----------	----------------

Health Hazards: IRRITANT. Irritating to eyes, skin, and respiratory system. May be harmful if absorbed through the skin or ingested.

Signs and Symptoms of Exposure: May cause irritation to the eyes, mucous membranes, and upper respiratory tract. May be harmful if inhaled. Ingestion can cause dehydration and congestion in internal organs.

Medical Conditions Generally Aggravated by Exposure: Ingestion can cause a fall in blood pressure, abdominal pain, nausea, and vomiting. The toxicity of phosphates is their ability to sequester calcium. Chronic exposure of phosphates may sequester calcium and cause calcium phosphate deposits in the kidneys. Prolonged or repeated exposure may cause allergic reactions in certain sensitive individuals.

Section 4- First Aid Measures

Inhalation	If inhaled, supply fresh air or oxygen. Seek medical attention. If breathing is difficult, give oxygen. In case of unconsciousness, place patient on side position for transportation.
Ingestion	If swallowed, wash mouth out with water provided person is conscious. Seek medical attention immediately.
Skin Contact	Remove contaminated clothing immediately. Wash with plenty of soap and water for at least 15 minutes. Seek medical attention. Wash clothing before reuse.
Eye Contact	Rinse opened eye for at least 15 minutes under running water, lifting lower and upper eyelids occasionally. Seek medical attention.

Section 5- Fire Fighting Measures

Suitable Extinguishing Media	Water Spray, Carbon Dioxide, dry Chemical Powder, or appropriate foam.
Protective Equipment	Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Emits toxic fumes under fire conditions. Firefighters should wear protective equipment and self-contained breathing apparatus..

Section 6- Accidental Release Measures

Personal Precautions	Shut off all sources of ignition, ventilate spill area. Consider need for evacuation. Wear suitable protective clothing, gloves, and eye protection. Avoid inhalation and contact with skin and eyes. Wear self-containing breathing apparatus, rubber boots, and heavy rubber gloves. Place contaminated material in a chemical waste container.
Methods for Clean Up	Contact safety officer and ventilate area. Absorb spill with inert material, including dry-lime, sand, or soda ash, then place into a chemical waste container using non-sparking tools. Wash spill site after material pickup is Complete.

Section 7- Handling and Storage

Safe Handling Ensure good ventilation / exhaustion and do not breathe vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged or repeated exposure. Do not use if skin is cut or scratched.

Storage Keep container tightly closed, protect from light, moist air, and steam. Store away from oxidizing agents. Keep away from heat, sparks, and open flame. Storage area should be cool, dry, and away from incompatible materials. Containers of this material may be hazardous when empty since they retain product residues.

Section 8- Exposure Controls and Personal Protective Equipment

Engineering Controls Do not use compressed air by filling, discharging or handling the product. Proper ventilation, safety shower, and eye bath required. Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

Personal Protective Equipment Uniform, lab coat, or disposable lab wear.

Respiratory Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Proper ventilation, safety shower, and eye bath required.

Hand Compatible chemical-resistant gloves.

Eye Safety glasses or chemical goggles to EN 166, 167, and 168.

Section 9- Physical and Chemical Properties

Physical State	Solid white, granules
Color	Colorless crystals or white powder,
Odor	Characteristic odor (NaCl)
Boiling Point	1413°C (NaCl) ,
Melting Point	> 465°C Proprietary reagent FR-001, 804°C
Flash Point	N/A
Autoigniting Point	N/A
Explosion Limit	N/A
Vapor Pressure	1.0 @ 865°C (NaCl)
Density	(AIR = 1): N/A

Solubility

Soluble Proprietary reagent FR-001,
150 g/ 100 g water Proprietary reagent FR-001, 35.7 g/ 100 g at 0°C (NaCl)

Section 10- Stability and Reactivity

Stability

Stable. Conditions to Avoid: Moisture, stable under normal storage conditions.

**Materials to be Avoided
Decomposition Products**

Strong oxidizing agents, and strong bases.
Potassium oxides, Carbon monoxide, Carbon dioxide, Nitrogen oxides, Sodium oxides, Sulfur oxides, and Hydrogen chloride gas. Thermal decomposition may produce toxic fumes of phosphorus oxides and/or phosphine.

Section 11- Toxicological Information

**Additional Toxicological
Information**

LD₅₀: ORL-RAT, 3000 mg/kg (Sodium Chloride),
LD₅₀: SKN-RBT, > 4640 mg/kg Proprietary reagent FR-001
LD₅₀: ORL-RAT, .017 mg /kg Proprietary reagent FR-001

Section 12- Ecological Information

Ecotoxicity

Slightly hazardous for water.
Toxicity to fish: LC₅₀: *Lepomis macrochirus* (Bluegill) – 1,294.6 mg/L –
96 hours (Sodium Chloride)

Section 13- Disposal Considerations

**Waste
Disposal**

Dispose in accordance with all applicable federal, state, and local environmental regulations. If any questions arise, contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.

Section 14- Transportation Information

DOT Hazard Class

*These chemicals are not regulated for transportation.

Shipping Name

N/A

Identification Number

N/A

Packing Group

N/A

Section 15- Regulations

EU Regulations**Hazard Symbol(s):**

Potassium Phosphate: Xi (Irritant)

Sodium Chloride: Xi (Irritant)

Proprietary reagent FR-001: Xi (Irritant)

Proprietary reagent FR-002: Xi (Irritant)

Risk Phrases:

Potassium Phosphate: R 36 / 37 / 38, Irritating to eyes, respiratory system, and skin.

Sodium Chloride: R 36 / 38, Irritating to eyes and skin.

Proprietary Reagent FR-001: R 36 / 37 / 38, Irritating to eyes, respiratory system, and skin.

Proprietary Reagent FR-002: R 36 / 37 / 38, Irritating to eyes, respiratory system, and skin.

Safety Phrases:

Potassium Phosphate: S 22 / 24 / 25, Do not breathe dust. Avoid contact with skin and eyes.

Sodium Chloride: S 24 / 25 / 26, Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Proprietary Reagent FR-001: S 26 / 36, In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing.

Proprietary Reagent FR-002: S 22 / 24 / 25, Do not breathe dust. Avoid contact with skin and eyes.

Section 16- Other Information

This document is believed to be correct, but does not purport to be all inclusive and shall be used only as a guide. These suggestions should not be confused with state, municipal or insurance requirements, and constitute No Warranty. Alpha Biosciences or FoodChek Systems Inc. shall not be held liable for any damage resulting from handling or from contact with the above product.
